**DETAILED ACTION**

***Election/Restrictions***

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1, 2, and 3, drawn to a half tone mask.

Group II, claim(s) 5, drawn to a method of making a mask.

Group III, claim(s) 4, 6, 7, and 8, drawn to a method of making a semiconductor device.

2. The inventions listed as Groups I, II, and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: A mask comprising a halftone layer in a pattern comprising silicon nitride and a light blocking layer is known in the art (see also US 5,960,106, 6,335,124). As said mask is known in the art it can not comprise the novel technical feature of the invention, therefore the different groups do not share a novel technical feature.

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
